

Strategic Air Command Airborne Command Control Association

Recording, Preserving and Celebrating the Legacy of PACCS

All Concerned,

Restoration of EC-135C Aircraft No. 63-8049 at the Strategic Air Command & Aerospace Museum in Ashland, Nebraska is progressing on schedule. This major project's success is depending on the support of all who wish to see this historic aircraft readied for display in order to enhance public awareness of its critical role in helping our nation win the Cold War.

To assist in this effort, the Strategic Air Command Airborne Command Control Association (SAC ACCA) has created a Challenge Coin to commemorate the restoring of this iconic plane that flew the final, continuous-airborne-operations Looking Glass mission on 24 July 1990. Commander-in-Chief of the Strategic Air Command (CINCSAC), General John T. Chain, Jr., was aboard serving as Airborne Emergency Action Officer (AEAO).

SAC ACCA is offering this coin not only to its own membership but also to all who are interested in making a contribution. You may order with a donation at one of the following levels:

<u>Donation Level</u>	<u>Donation Amount</u>	<u>Award</u>
Platinum	\$185	Gold & Silver Coins
Gold	\$135	Gold Coin
Silver	\$50	Silver Coin

Copyright, SAC ACCA & Tiger 2 Productions, 2008-2015

Should you wish to order a coin and its accompanying Certificate of Authenticity, please send a check made out to SAC ACCA to the Association's Treasurer. The cost of the coin and the mailing will be deducted and the individual's name, address and recalculated donation provided to the Museum which will respond with a letter stating the new amount for use with regard to taxes. Mail to:

SAC ACCA Treasurer
